Caterpillar B15 Battery Replacement

This guide will assist you in replacing the Li-ion battery for the Caterpillar B15.

Written By: Geoffrey Mosdell

Step 1 — Battery

- Place the phone screen-side down and place thumb on the yellow and black switch. Slide the switch to the right to unlock the back covering for removal.

Step 2

- Remove the back covering by gently lifting upwards from the bottom of the back covering. The back will snap off and the battery is exposed.

Step 3

- Place index finger at the top edge of the battery and gently lift upwards. The battery will slide cleanly out of the phone. The new battery can be inserted where the old one was. The phone can be reassembled by following these steps in reverse.

To reassemble your device, follow these instructions in reverse order.
